## 2a. Windows Defender Activation Steps.

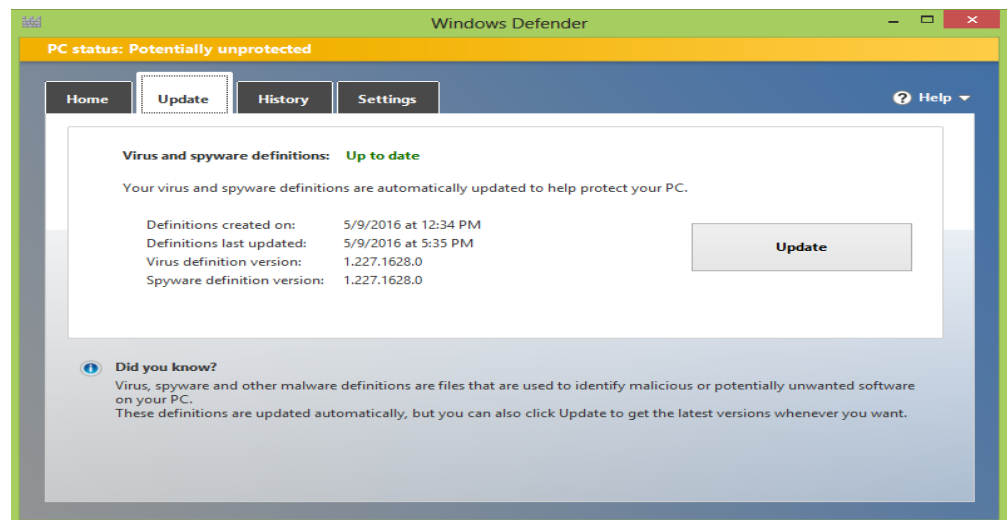

- i) Open your Windows Defender
  - a. Click **Settings** tab and tick **Turn on real – time protection (recommended)** check box.

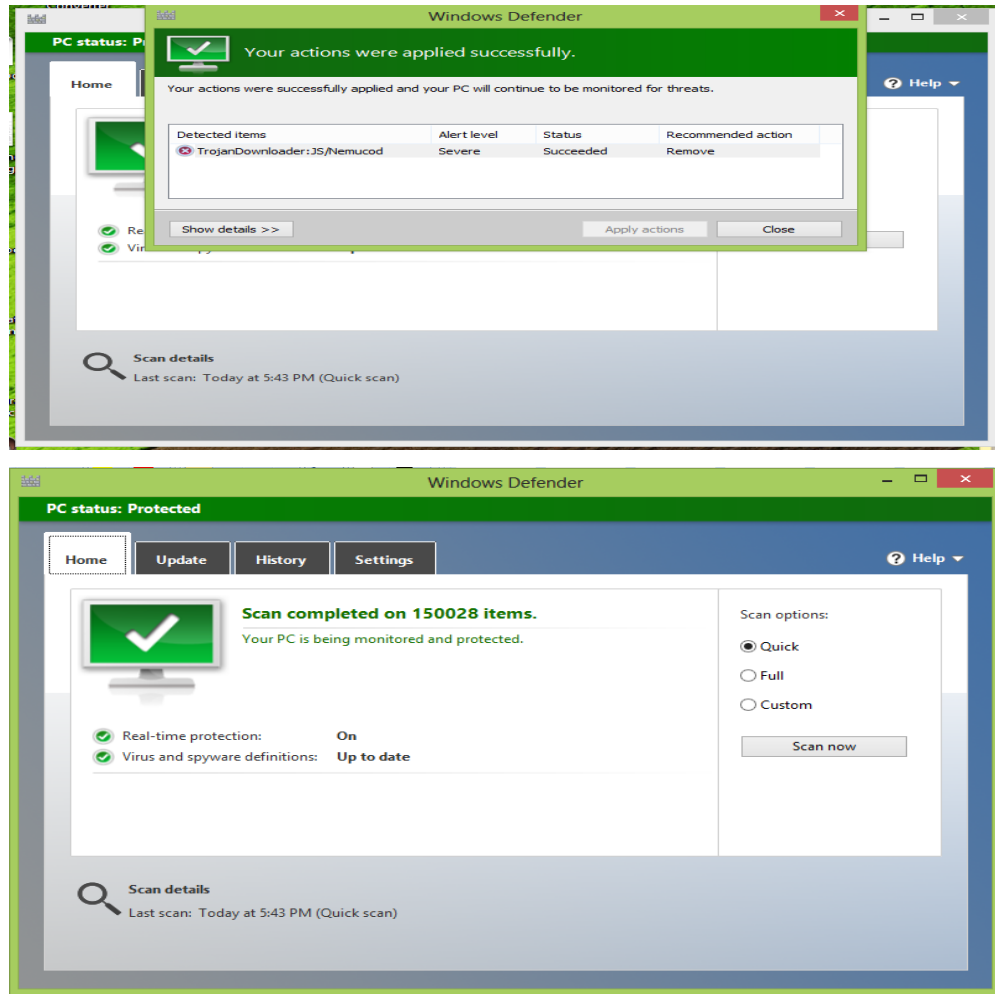

- ii) Now, your Windows Defender is activated and enabled.
- iii) Update your Windows Defender

Screen after Virus and spyware update.

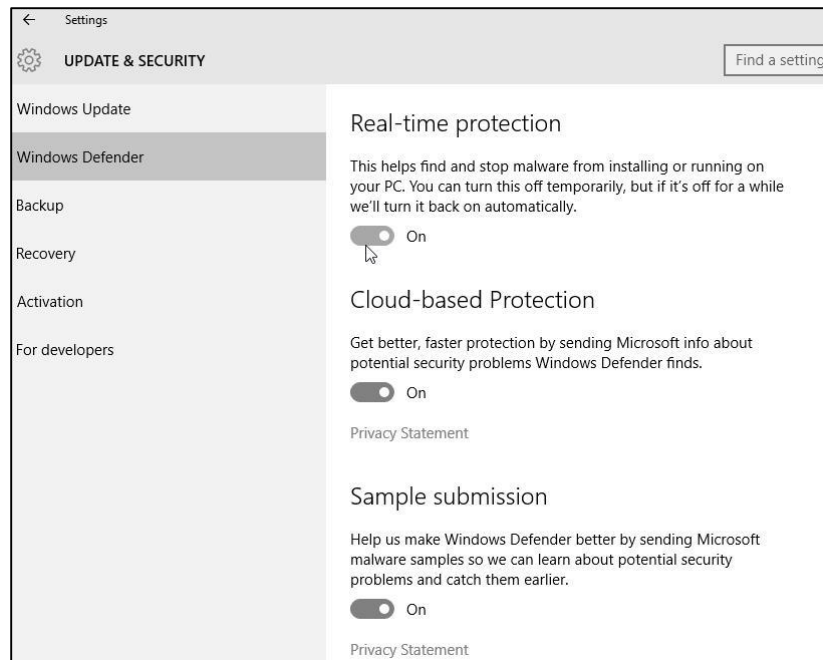

- v) Scan your PC and clean your threats.

Your PC now is secured.

#### For Windows 10 :

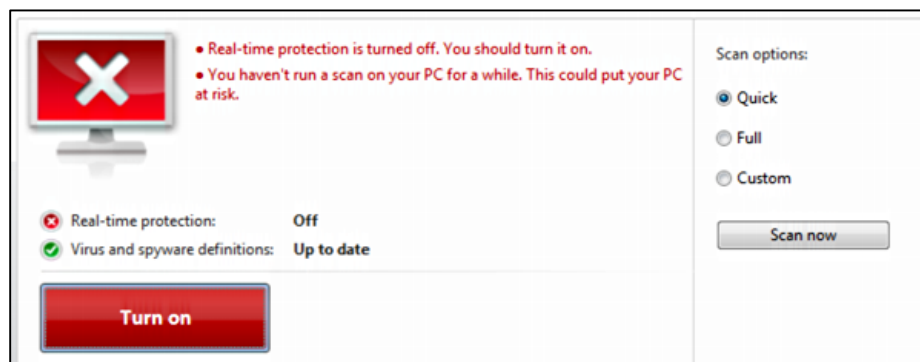

- i) Open Start menu or Cortana keyboard search (**Windows Key+S**), type "**defender**" and click or tap **Windows Defender settings**.
- ii) Then, enable the **Real – time protection** switch to turn on Windows Defender. If this is disabled, other settings are unavailable (greyed out). Same as in (1.)(ii)(a).

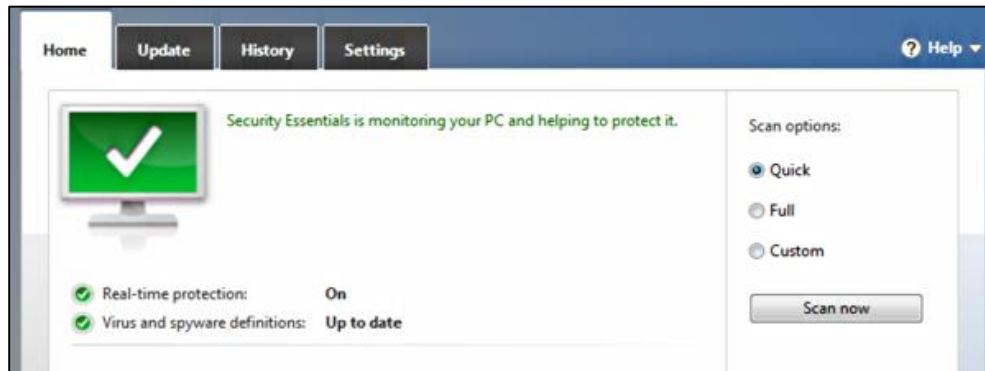

## 2b. Microsoft Security Essentials

### For Windows 7

1. Go to **Start** menu, and look for **Microsoft Security Essentials**.
2. Click the **Turn ON** button to activate **Microsoft Security Essentials**.

This should be the result after clicking it:

3. In case it displays a time out error that it could not enable the program, try rebooting your PC and it should run normally.

## 2c. Other antivirus (30 – days trial version)

1. Kaspersky Total Security (<http://www.kaspersky.com/downloads/total-security-multi-device>)
