ICT Services for Student

WHAT IS UTMID

- a. UTMID is a unique identification (ID) assigned to a user to authenticate a user before accessing UTM network, ICT applications and services including UTMWiFi, MyUTM portal and UTMSmart.
- b. At the moment, UTMID is only available for registered students and staff.
- c. UTMID is also used as an official email ID for staff and students. For students, you will have yourutmid@graduate.utm.my as your email user id.
- d. In case you need to reset your UTMID password, you can do it at <http://utmid.utm.my>

HOW TO GET YOUR UTMID & UTM OFFICIAL EMAIL ID?

- a. **FOR A NEW STUDENT**
 - a. **who will register during orientation week:**
 - a. Starting from 2019/2020 session, UTMID is pre-assigned to you.
 - b. You will be notified through an email (utmid@utm.my) send to your registered email address (an email address that you have provided with your admission application).
 - b. **who will register outside orientation week:**
 - a. Generate your UTMID and official email at Student Service Counter, CICT
- b. **FORMER STUDENT / EXISTING STUDENT / UTM STAFF**
 - a. using your existing UTMID/ ACID account
 - b. **** PLEASE CONTACT US IF YOU FORGOT YOUR UTMID/ ACID OR PASSWORD ****

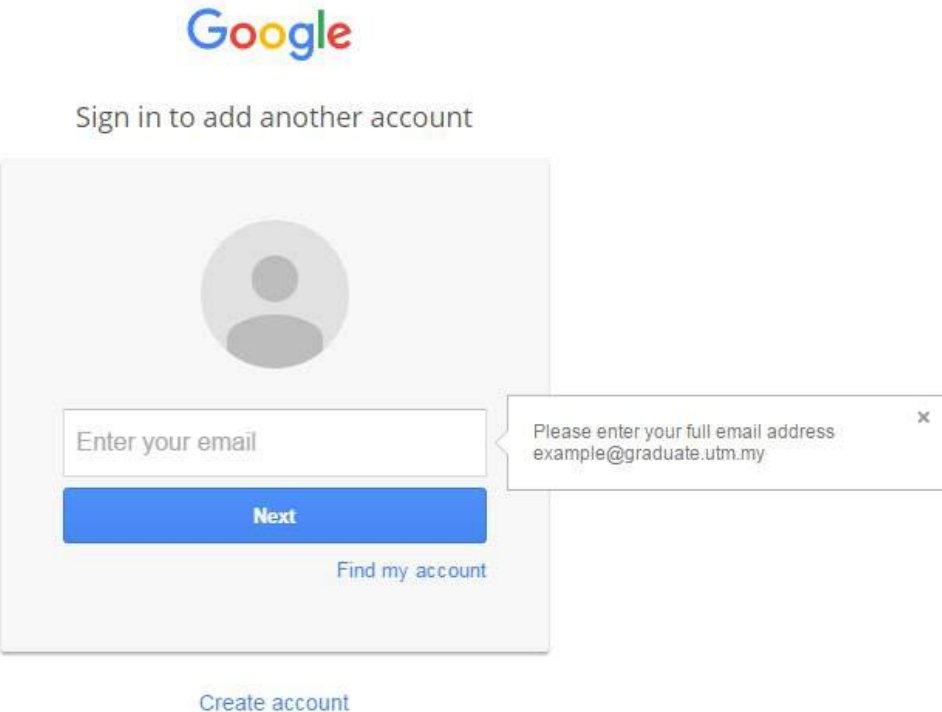

HOW TO GET YOUR
ID/OFFICIAL EMAIL

HOW TO ACCESS YOUR OFFICIAL EMAIL

1. Our email platform is gMail.
2. Access URL
<http://mail.graduate.utm.my>
3. User ID = UTMID

e.g :

yourutmID@graduate.utm.my

The screenshot shows the Google account sign-in process. At the top is the Google logo. Below it, the text "Sign in to add another account" is displayed. A central grey box contains a placeholder profile picture, an input field labeled "Enter your email", a blue "Next" button, and a link "Find my account". A tooltip message on the right says "Please enter your full email address example@graduate.utm.my". At the bottom of the page, there is a "Create account" link.

High Performance Computing(HPC)

- uses supercomputers and computer clusters for solving complex computational problems.
- HPC technology focuses on using parallel processing algorithms and systems.

HPC

High Performance Computing

What is HPC?

refers to the **practice of aggregating computing power** in a way that delivers **much higher performance** than one could get out of a typical desktop computer or workstation in order

to solve large problems and large data in science, engineering, or business and performing research activities through computer modelling, simulation and analysis.
